

distritotec

distritotec is an urban community that seeks to transform lives through *the power of encounters*.

Driven by Tecnológico de Monterrey and carried out in collaboration between institutions, government, and the community, it envisions a city model where quality of life and the ability to innovate combine in actions of urban and social transformation.

We act through four pillars:

Innovative community

New ideas and solutions for a shared future.

We foster the creation of an Innovation District, where high concentrations of talent work together with global companies, startups, government, and neighborhood communities to build a knowledge-based economy.

Sustainable environment

A viable present and future for all people.

We work toward a sustainable city and mobility model, valuing and caring for the district's natural green spaces.

Life in the district

Vibrant experiences in our streets and shared spaces.

We promote community life, fostering art and diverse expressions to inspire connections and innovation.

Spaces for connection

Places to connect, bond, and come together as a community.

We encourage the creation of accessible and inclusive spaces; places that foster connection, creativity, and innovation.

12 ways to experience *the power of encounters* in distritotec

Parque Central

The space formerly occupied by the old Estadio Tecnológico has been revitalized as a new community heart. Parque Central is open to everyone for connection, interaction, and recreation.

Expedition

The flagship innovation building in the district. This multidisciplinary research and innovation space attracts talent, fosters entrepreneurship, and builds partnerships to create solutions for humanity's greatest challenges.

Renovated neighborhood parks

Connections happen more often when we have high quality public spaces.

Parks, plazas, and green areas in various neighborhoods have been recovered, regenerated, and rehabilitated (find them on the map) thanks to the collaboration of neighbors, authorities, businesses, and distritotec.

Venture Café

Meet and interact with a community of innovative and entrepreneurial people who connect through high-impact and open-access programs and events.

Complete streets

Discover and enjoy streets designed for people, promoting coexistence, sustainable mobility, and safety (find them on the map).

Callejero

A monthly event to meet, filling the streets and public spaces with life through games, food, music, art, and social interaction. Check the schedule and join the next one.

Public art program

Murals and outdoor galleries, artistic expressions emerging in public spaces that create opportunities for connection: whether permanent or temporary works, you'll always find art as you walk through distritotec.

Estadio Banorte: La Casa de los Borregos

Passion for sports, athletics, physical activities, cultural events, and even performances now thrive in a more university-oriented environment, with facilities adapted to distritotec's urban conditions.

Skyspace "Espíritu de Luz" by James Turrell

Enjoy a unique sensory experience with this work by renowned artist James Turrell. "Espíritu de Luz" is a sky observatory offering visual experiences through a sequence of lights at each sunrise and sunset. Book your visit at turrell.monterrey.tec.mx.

Casa Naranjos

A space for connection, collaboration, and networking that contributes to community growth through classes, workshops, concerts, and exhibitions.

Pocket parks

Previously underutilized spaces on campus have been transformed and opened as public areas for community connection and relaxation.

Arts Corridor – Junco de la Vega

An area where urban design and cultural expressions come together, turning public space into a vibrant experience of ideas and interaction.

Every person who lives, commutes,
studies, works, and shares this space is
part of *distritotec*.

**Let's build the community we deserve and need
through our daily actions:**

Take care of public
and shared spaces.

Respect speed limits
and parking regulations;
follow traffic rules.

Respect
the local
community.

You are an essential part of the distritotec community!

Participate in all the activities and experiences at distritotec:
